

15 Nov. 2018

The Puddle:

A little shoe comes bounding
in SL as a child rings
in front of their ^{mother} mummy.
We hear the sound of
this little shoe.

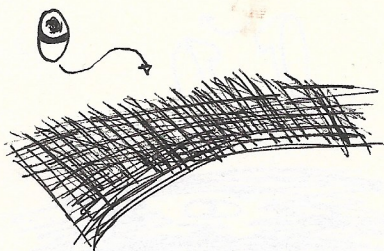

(LS)

* The little shoe sees
the puddle and goes
to the edge.

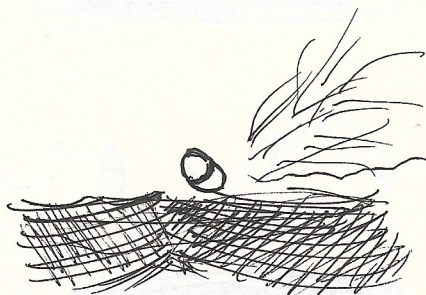

OR

Sees the puddle ~~at~~ and
jumps directly in.

The LS calling enters
the puddle, feeling the
water. It quickly starts
to jump and play.

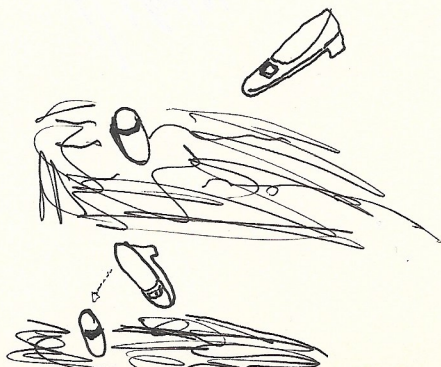

When the shoe enters
the puddle the sound of
the water takes over
its movements no longer
the sound of the LS.

As the LS splashes the
sound of some one coming
from SL is heard.

(MS)
The Mother shoe enters.

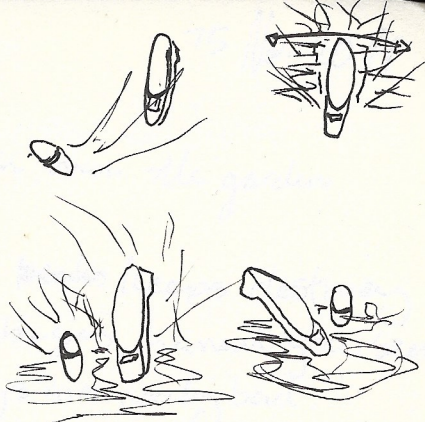

Looking about first
she is mildly cross.
She hears her sound
of movement.

The LS in response splashes
the MS first once, then
twice and finally a third
time.

The MS shakes off the
water, then calmly
enters the water.

~~MS~~ We hear the ^{water} ~~sound~~
of both of them splashing.

^{there movement sound}
~~Someone~~ one is heard coming
SL. MS quickly gets out
of the water and shakes
off. ^{Looks at point.} ~~MS's~~ MS's sound now
returns as she exits the
water.

MS calls the LS.

The LS come out of the
puddle, its sound
returns.

It shakes off and
bounces off SR as it
came.

MS ~~to~~ follows.
